

## **Instructional Make Up Days for Emergency Closures**

In the event that an emergency or inclement weather results in school closing, the district will make up the day/s as follows:

1. Students will not make up the first instructional day.
2. From the second day on, students will make up all missed instructional days.
3. The school calendar will indicate one provisional make-up day as needed. If additional make-up days are needed, the Board in consultation with the Superintendent will establish the make-up days as soon as practical following the school closure/s.
4. Non-instructional days and/or the first instructional day missed will be made up by contract staff as follows: In agreement with the Superintendent, building principals or supervisors will determine how staff will make up missed days. They may either designate make-up days or institute other procedures for staff to make up the missed days.
