

Sisters School District

“Home of the Outlaws”

Curtiss Scholl
Superintendent

03-18-2020

Dear Sisters Schools Community,

The district has been following guidance from Governor Brown and the Oregon Health Authority to keep our community as safe as possible. Currently, most staff are out of the building as we do our part to combat community spread of this virus.

After a virtual meeting with the Oregon Department of Education this morning, we have a better understanding of the most recently announced extended closure. If you have not heard, the governor has extended the closure of schools to students until April 28th. We were informed that this date could be reduced or lengthened depending on the data on positive COVID-19 cases that develop in the weeks to come.

On April 6th, our staff will report to work. They will break into grade level or content area teams to develop core supplemental work to send out to our students. It is our goal to get supplemental material out as quickly as possible and estimate that we should start disseminating materials no later than Wednesday, the 8th.

We are in continual communication with the Oregon Department of Education and we will communicate out changes as we get them. ODE has an FAQ page at: <https://www.oregon.gov/ode/students-and-family/healthsafety/Pages/COVID-19-FAQ.aspx>.

Thank you again for your continued support and understanding as we navigate this rapidly changing crisis.

Regards,

Curt Scholl
Superintendent, Sisters School District
